---

### Position:

Calian, Advanced Technologies is looking for a **Front-End Software Developer** to join our UI team building modern UI experiences using the latest technologies. You will join a team of front-end software developers that provide innovative solutions to the world's leading satellite operators. You are eager to collaborate, learn, and push the limits of the solutions Calian provides. You leverage your creativity and UI software development experience to generate an eye-catching user experience.

### Responsibilities:

- Create the best UI experiences for our customers by leveraging the latest in UI/UX tooling
- Design and develop UI software for deployment in larger software systems that power the world's leading satellite communications networks
- Assist in use case development and translate those needs into UI mockups early in the design phase to define the first looks of the application's UI experience
- Work closely with domain experts to understand and analyze requirements for complex software solutions
- Simulate web server behaviour in the early stages of development of the front end to create a solid testing foundation for the UI

### Qualifications:

- Bachelor's degree in Computer Science or Computer Engineering
- 1+ years of experience in designing and building Web UIs in React (Hooks) and Redux
- Proficiency with JavaScript, ESLint (ES6), Flexbox, npm, and css/theming
- Expertise in authoring responsive, cross-browser compatible UIs in React
- Experience in Material UI, Java Spark, and Node JS web servers is an asset
- Knowledgeable with REST API development, Swagger files and WebSocket is an asset
- Knowledge of building reusable components with React is an asset
- Experience working directly with customers and users to understand, document and develop solutions to meet their requirements is an asset

## Why Work for Calian Advanced Technologies?

- Opportunity to make an impact by building and supporting projects that millions of people depend on daily
- A team-oriented work environment that promotes learning, collaboration, and skill improvement
- Annual salary and performance reviews, with regular one-on-one sessions to support career development
- Flexible hours and everything you need to work from home
- Robust company paid benefit plan with the option to participate in the employee stock purchase plan

The ability to meet the requirements outlined in the Canadian Controlled Goods Program is mandatory. All employees are required to apply for and receive a Government Security Clearance.

Thank you for your interest in Calian!
