Position:

Calian, Advanced Technologies is looking for a **Surface Mount Technologist (SMT) Operator** to join our fast-paced manufacturing team. You thrive in a team-based environment and have a willingness to learn. No experience is necessary, and training is provided.

Responsibilities:

- Performing pre and post-production tasks such as picking parts, setting up electronic feeders, organizing parts inventory, populating circuit cards, inspection and other assembly tasks required to meet project demands
- Operating Surface Mount Technology (SMT) equipment and the Selective Solder machine
- Maintaining the required level of quality and productivity while working collaboratively and cooperatively in a team environment
- Seeking to continuously improve processes and procedures

Qualifications:

- A high school diploma or equivalent
- Work well under pressure, have strict attention to detail and strong communication and organization skills
- Ability to work effectively in a team environment
- Electronics assembly experience is considered an asset

Why Work for Calian Advanced Technologies?

- A casual, team-oriented work environment that promotes learning, collaboration, and skill improvement
- Opportunity to make an impact by building and supporting project that millions of people depend on daily
- A team-oriented work environment that promotes learning, collaboration, and skill improvement

The ability to meet the requirements outlined in the Canadian Controlled Goods Program is mandatory. The successful candidate is required to apply for and receive a Government Security Clearance.

The successful applicant will be required to work on site at our Innovation Place facility while adhering to all our COVID-19 measures and guidelines.

Thank you for your interest in Calian!
